ESPERIENZE 2015

ESPERIENZE

Questo libro illustra le lampade che ho inventato e selezionato dalla fine degli anni Ottanta.

Ho iniziato con l'idea di fare una collezione esattamente come quella che ora presento:
lampade in cui semplicità, leggerezza, emozione ed invenzione sono le componenti
fondamentali di progetto.

Penso che il lavoro di fare lampade non sia una scienza esatta, ma nello stesso tempo
senso la necessità di seguire un metodo.

Un metodo che mi permetta di dare un senso a tutto quello che faccio.
Per questo motivo, mi avvicino alla luce con l'idea di avvicinarmi alla verità e,
di conseguenza, alla bellezza.
Le lampade che preferisco sono quelle che arrivano dal cuore e dal cervello,
intuizioni che affiorano da un certo modo di essere e di pensare.

Nel mio lavoro sono stati determinanti alcuni incontri con persone speciali.

Personne che mi hanno regalato il loro tempo, che mi hanno insegnato
a guardare le cose e a metterle insieme.

In particolare devo ringraziare tutti i miei fantastici collaboratori
e tutte le persone che contribuiscono allo sviluppo del nostro progetto.

Davide Groppi

This book shows the lamps which I have projected and selected since the end of the Eighties.

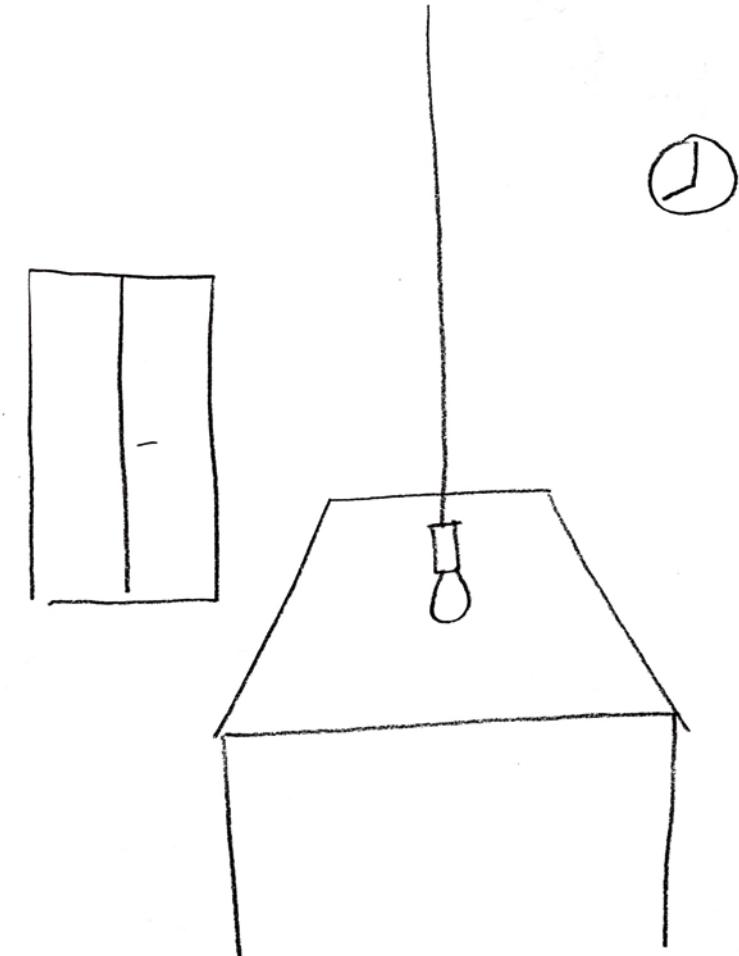

I began with the idea of presenting exactly this collection:
lamps in which simplicity, lightness, emotion and invention are the basic components of the project.

I believe that making lamps isn't an exact discipline, but at the same time
I need to follow a method.

A method which lets me give a sense to whatever I do.
For this reason, I come close to the light thinking to come close to the truth and,
consequently, to the beauty.
The lamps I prefer are the ones which arrive from the heart and the brain,
intuitions which emerge from a certain way of being and thinking.

During my job life I met some special persons.
Persons who gave me their time, who taught me how to watch the things
and how to put them together.
Particularly I must thank all my fantastic collaborators
and all the persons who contribute to develop our project.

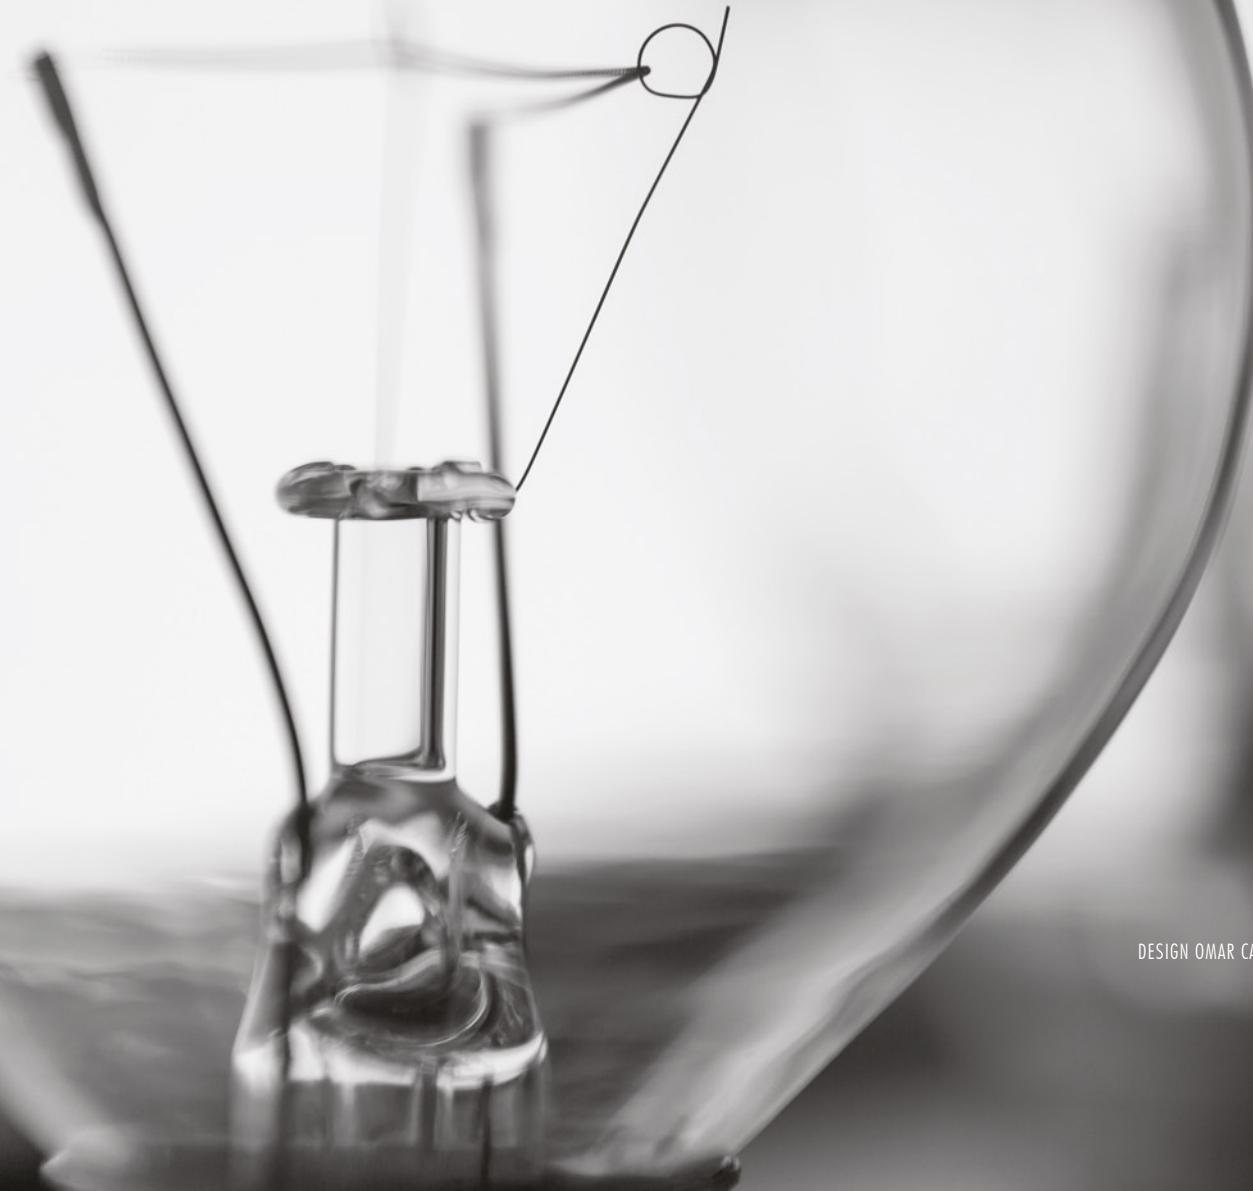

Davide Groppi

Charles.
Omaggio a Darwin e all'evoluzione della lampadina.
Dall'incandescenza al led.
Tutto retroilluminato da un Oled.
Il futuro che illumina il passato.

Charles.
A tribute to Darwin and to the light bulb evolution.
From incandescent to led.
All illuminated by a Oled.
The future illuminating the past.

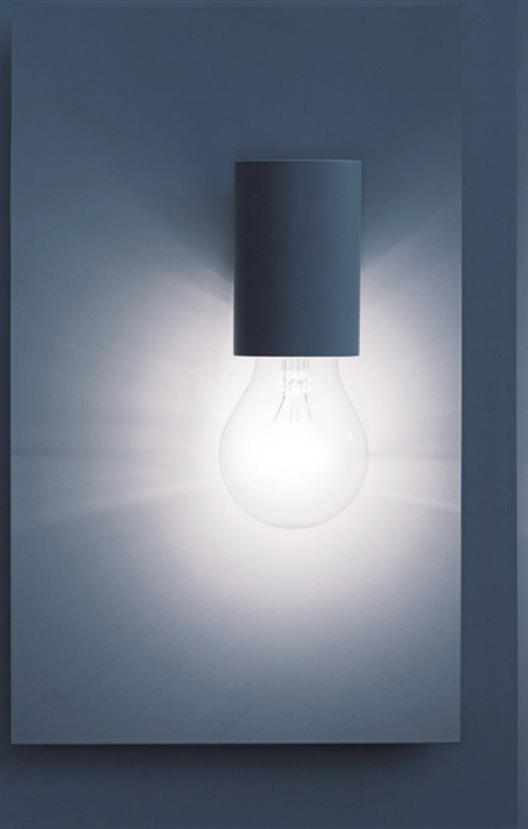

DESIGN OMAR CARRAGLIA - 2014 - WALL OLED LAMP - WOOD - METAL - METHACRYLATE
220 / 240 V - 50 / 60 Hz - 2,1 W OLED - 104 lm
COD. 175500 - STANDARD

EDIVAD ?! DAVIDE

Edivad è come un quadro di Magritte. Surreale e misteriosa.

Edivad is like a Magritte's paint. Surreal and enigmatic.

DESIGN DAVIDE GROPP - 2012 - WALL LAMP - METAL

220 / 240 V - 50 / 60 Hz - MAX 60 W - E27

BULB INCLUDED 46 W - 700 lm

COD. 168103 - MATT WHITE

LED IS MORE 1 - DESIGN DAVIDE GROPPY - 2011 - SUSPENSION LED LAMP - METAL - METHACRYLATE
220 / 240 V - 50 / 60 Hz - 5 W LED - 420 lm
COD. 176103 - MATT WHITE

LED IS MORE 2 - DESIGN DAVIDE GROPPY - 2011 - SUSPENSION LED LAMP - METAL - METHACRYLATE
INSTALLATION KIT INCLUDED - 350 mA DC - 5 W LED - 420 lm
COD. 176203 - MATT WHITE

BULB INCLUDED 18 W - 204 lm
COD. 143903 - MATT WHITE

Quando manca la corrente. "Dove ??"
Torcia a batteria a forma di lampadina.

During a power cut. "Dove ??"
Battery torch in a shape of a light bulb.

DESIGN DAVIDE GROPP - 2014 - TORCH LED LAMP - METAL - METHACRYLATE

1 W LED - 80 lm - BATTERIES 2 x 1,5 V AA

COD. 153104 - MATT BLACK

Edison's Nightmare è un saluto alla lampadina di Edison*, ad un sogno che ha cambiato per sempre il modo di vivere, sottraendo al sonno ore da dedicare a lettura e scrittura.

Si tratta di una classica lampadina inchiodata al muro. Come un'opera d'arte.

La semplicità si manifesta attraverso il comune gesto dell'appendere.

Inchiodare una lampadina significa immortalare un'idea che ha rivoluzionato il mondo.

Allo stesso tempo è un gesto violento e simbolico che va a pungere il nostro senso

di responsabilità nei confronti delle possibilità di vivere il futuro.

E' la citazione di un simbolo a cui viene conferita nuova vita in questo passaggio culturale in cui

il progresso coincide anche con un atto di conservazione del passato.

* Dal 1 Settembre 2012 non è più possibile, nella Comunità Europea, vendere lampadine ad incandescenza.

Edison's Nightmare is a salute to Edison's* light bulb. A salute to a dream that changed forever the way we live, taking from sleep hours the time to read and write,

It is about a classic light bulb nailed on the wall. Like a piece of art.

Simplicity is expressed with the gesture of hanging.

Nailing a lamp simplify immortalise an idea that changed the world.

At the same time is a violent and symbolic sign that stings our sense of responsibility towards the possibilities to live in the future.

Is the quotation of a symbol to a new life in the cultural transition where

progress is about conservation of the past.

* From the 1st September 2012 is not possible in the EU to sell incandescent light bulbs.

DESIGN HARRY THALER - 2014 - WALL LAMP - METAL - GLASS

230 / 240 V - 50 / 60 Hz - MAX 16 W - 12 V - G4

BULB INCLUDED 16 W - 300 lm

COD. 151300 - STANDARD

Neuro è un progetto semplice, quasi la rivisitazione dei vecchi impianti elettrici.
Una spina, un cavo, degli isolatori, un portalampada ed una lampadina led.
E' l'idea di portare la luce dove si vuole, partendo da una presa elettrica.

Neuro is a simple project, almost a revival of the old electrical wiring.
A plug, a cable, some isolators, a socket and a led.
The idea is to bring light wherever you like, starting from a wall socket.

COD. 175403 - MATT WHITE | COD. 175404 - MATT BLACK

Ho creato tante lampade.

Alcune le ho solo selezionate, altre le ho inventate ...

Mi è capitato di progettare luci per situazioni speciali,
lampade per la mia azienda ed anche cose per altri.

Ho ideato cataloghi e scattato infinite fotografie.

In giro per il mondo ho illuminato case, ristoranti, musei, negozi ...

In tutti questi ruoli ho imparato che non esistono due situazioni uguali.

Per me, è sempre la prima volta.

Delle mie lampade posso parlare solo indirettamente, nella speranza di esprimere,
almeno in parte, ciò che le ha originate.

Una lampada non mi è mai apparsa sotto forma di lampada, raramente sotto forma di un disegno.

A lampada finita, tendo a ritrovare, nel progetto, immagini, impressioni,
eventi che mi hanno colpito, forme che sento vicine ...

I designed many lamps.

Some are simply selected by me, some have been invented ...

I had the chance to project the lights for special situations,
lamps for my company and also for other people.

I thought up catalogues and took plenty of photos.

I enlightened houses, restaurants, museums, stores ... all around the world.

In all these rules I learnt that two situations are never the same.

For me, it's always the first time.

I can speak about my lamps only indirectly, with the hope to express,
at least partially, what originated them.

A lamp has never appeared to me as a lamp, rarely neither as a drawing.

When the lamp is completed, I tend to find in the project, the images, the impressions,
the events that struck me, the shapes I feel close to ...

DESIGN SARA FRATTINI - 2013 - SUSPENSION LED LAMP - METAL

LA LUCE NEL PIATTO

La luce nel piatto è la luce più bella.
Quella che permette di sentirsi gli unici ospiti di un ristorante,
quella che ci fa vivere un'autentica esperienza multisensoriale.
Ma, soprattutto, quella che trasforma un tavolo in un luogo di incontro e di amore.

The light in the plate is the most beautiful light.
The light which makes us the unique guest in the restaurant,
which makes us live a real multisensory experience.
But, above all, the light which turns the table into a place to meet and to love.

Basic.

Una miniatura di muro in mattoni, una delle possibili espressioni dell'architettura.

Dotata di una fonte luminosa a led di ultima generazione.

Funzionale nell'offrire la possibilità di ricaricare varie tipologie di dispositivi attraverso una porta USB.

Una memoria celata al suo interno può soddisfare le contemporanee esigenze "digitali" di archiviazione dei files personali.

Basic.

A brick wall miniature, a possible expression of architecture.

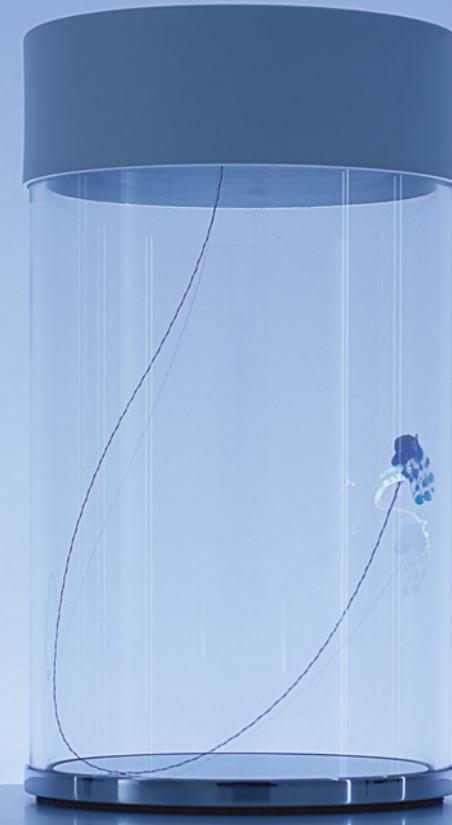

It bears a light source among the last generation led.

It is useful to charge different kind of electronic devices through a USB.

A memory hidden inside can fulfil the digital needs to storage personal files.

DESIGN OMAR CARRAGLIA - 2014 - TABLE LED LAMP - METAL - ABS - METHACRYLATE
220 / 240 V - 50 / 60 Hz - 5 W LED - 345 lm
COD. 175000 - STANDARD

Profumo d'Estate è l'idea di tornare indietro, ma anche di guardare avanti.

Di pensare all'estate che verrà o a quella che è passata.

Le luciole fanno parte del nostro immaginario,

emettono luce e appartengono spontaneamente al nostro mondo.

Abbiamo fatto una lampada mettendo una luciola in un barattolo.

Come facevamo da bambini ...

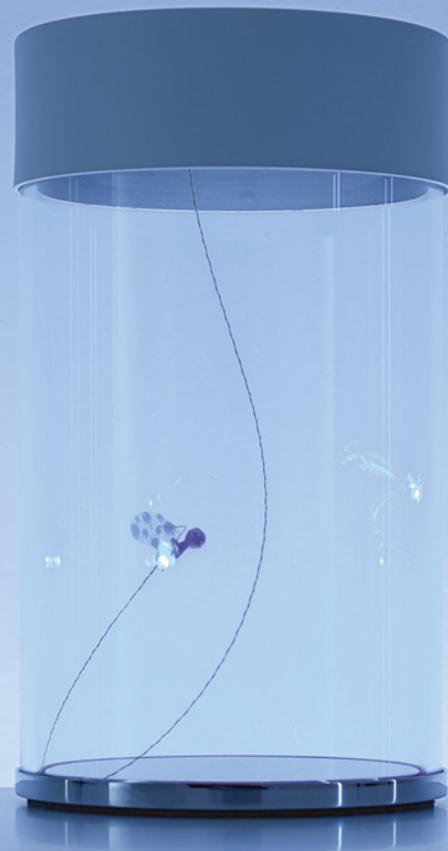

Profumo d'Estate is the idea to come back but also to look ahead.

Thinking about the next summer or the past one.

Fireflies are part of our imaginary, they spread light and belong spontaneously to our world.

We made a lamp by putting a firefly in a can.

Like we did when we were kids ...

BULB INCLUDED 42 W - 630 lm
COD. 155603 - MATT WHITE

A minimalist floor lamp featuring a single, long, vertical rectangular shade made of a translucent or semi-transparent material. The lamp is mounted on a thin, light-colored cylindrical base that sits on a dark, flat surface. The background is a soft, out-of-focus gradient from dark to light.

DESIGN OMAR CARRAGLIA - 2005 - FLOOR LAMP WITH DIMMER AND RGB CONTROL - METAL - POLYCARBONATE
220 / 240 V - 50 / 60 Hz - 3 x 28 W - G5 - RGB CONTROL
BULBS INCLUDED - 28 W RED - 2100 lm | 28 W GREEN - 3500 lm | 28 W BLUE - 700 lm
COD. 134203 - MATT WHITE | COD. 134213 - BLACK BRUSHED INOX

A photograph of a person's silhouette standing next to a tall, thin vertical light fixture. The fixture is illuminated from within, casting a bright glow. The background is a gradient of blue and white.

Movie è un meraviglioso strumento per "giocare" con la luce.
Un sistema RGB permette di creare ... tutta la luce del mondo.
Per sentire la luce e viverla in tutto il suo spettro.

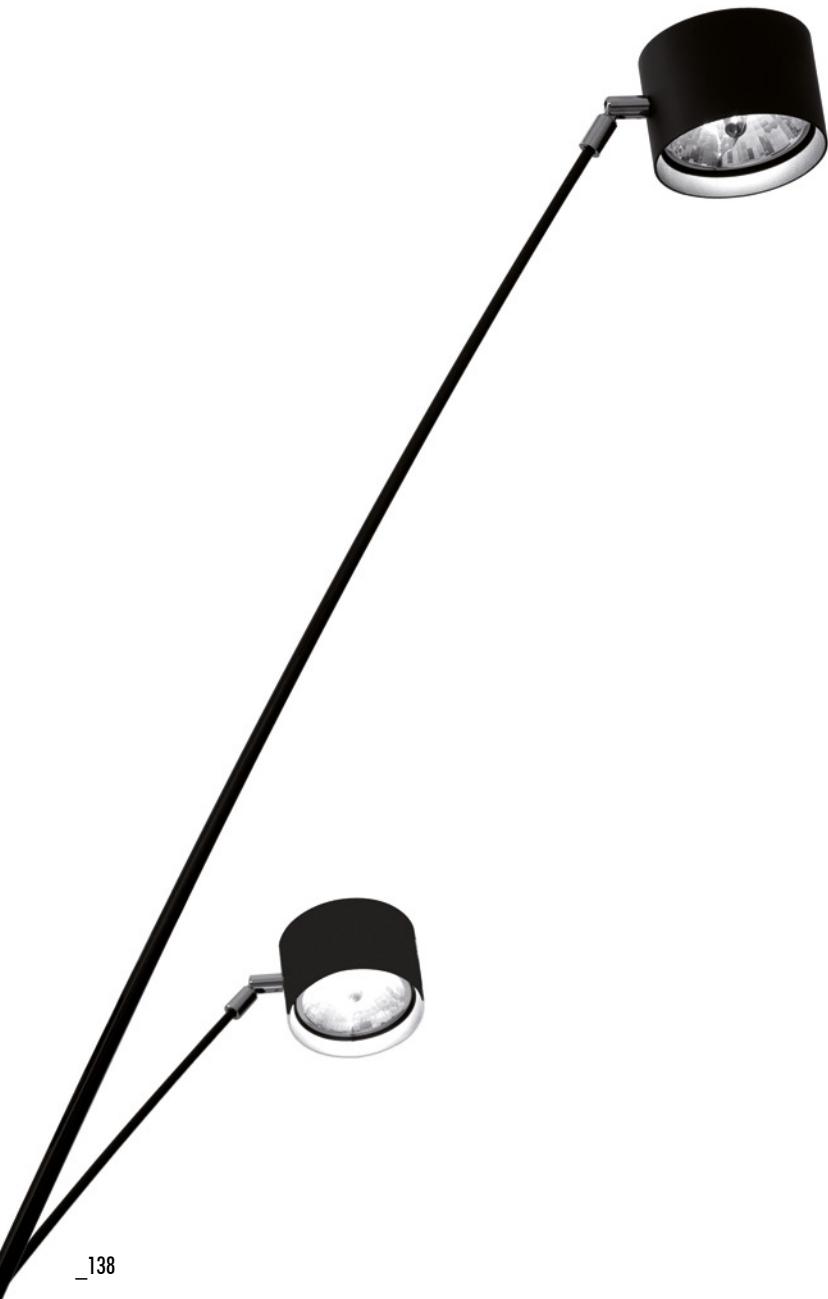

Movie is a wonderful tool to "play" with the light.
A RGB system lets you create ... all the light of the world.
To feel the light and to live it in all its spectrum.

Sampei è l'idea di un segno nello spazio, l'idea di mettere la luce per terra o sul tavolo.
Un filo d'erba che oscilla e si flette quasi sotto il peso dello sguardo.
Basta un soffio e Sampei disegna un'immagine virtuale e inafferrabile.
Alla fine, Sampei è una canna da pesca.
Semplice e performante al tempo stesso.
Il corpo illuminante, minuscolo e orientabile, crea una poetica sproporzione.
Sampei è disponibile anche nella versione outdoor.

Sampei is the idea of a sign in the space, the idea of putting the light on the floor and on the table.
A grass blade which swings and flexes even under the weight of a glance.
A blow is enough to have Sampei drawing a virtual and untouchable image.
At the end, Sampei is a fishing rod.
Simple and performing at the same time.
The lighting source, tiny and adjustable, is not proportional but poetic.
Sampei is available also for outdoor.

COD. 124703 - MATT WHITE

Nulla è un lavoro estremo sul tema della sottrazione.

La luce è indagata e presentata come puro fenomeno fisico.

La ricerca di una "luce senza fonte" mi ha portato a considerare la possibilità di realizzare un progetto invisibile, magico e illusorio.

Un'idea semplicissima: un buco nel soffitto.

Un foro di soli 18 mm, uno speciale sistema ottico e la tecnologia led generano una meravigliosa luce sul piano.

Luce profonda e sensuale.

Nulla is an extreme work on subtraction.

The light is investigated and presented in its pure physical aspect.

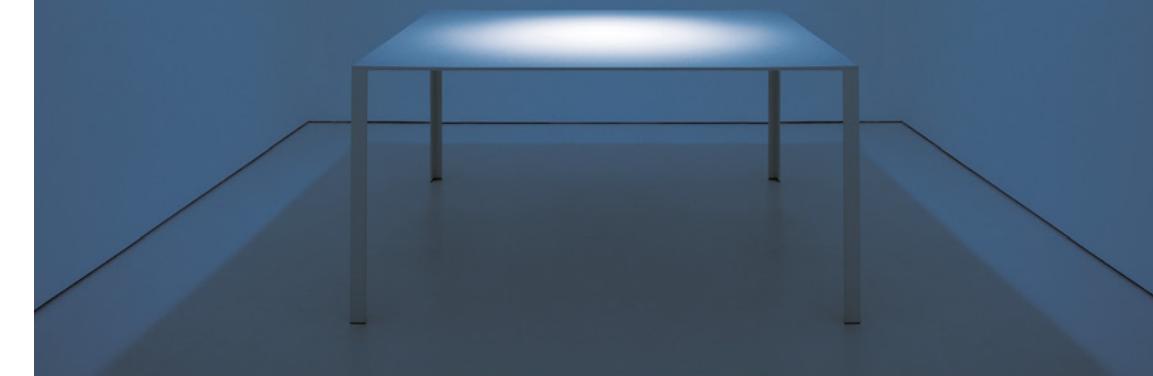

The research into a "light without a source" drove me to consider the realization of a project which is invisible, magic and illusive.

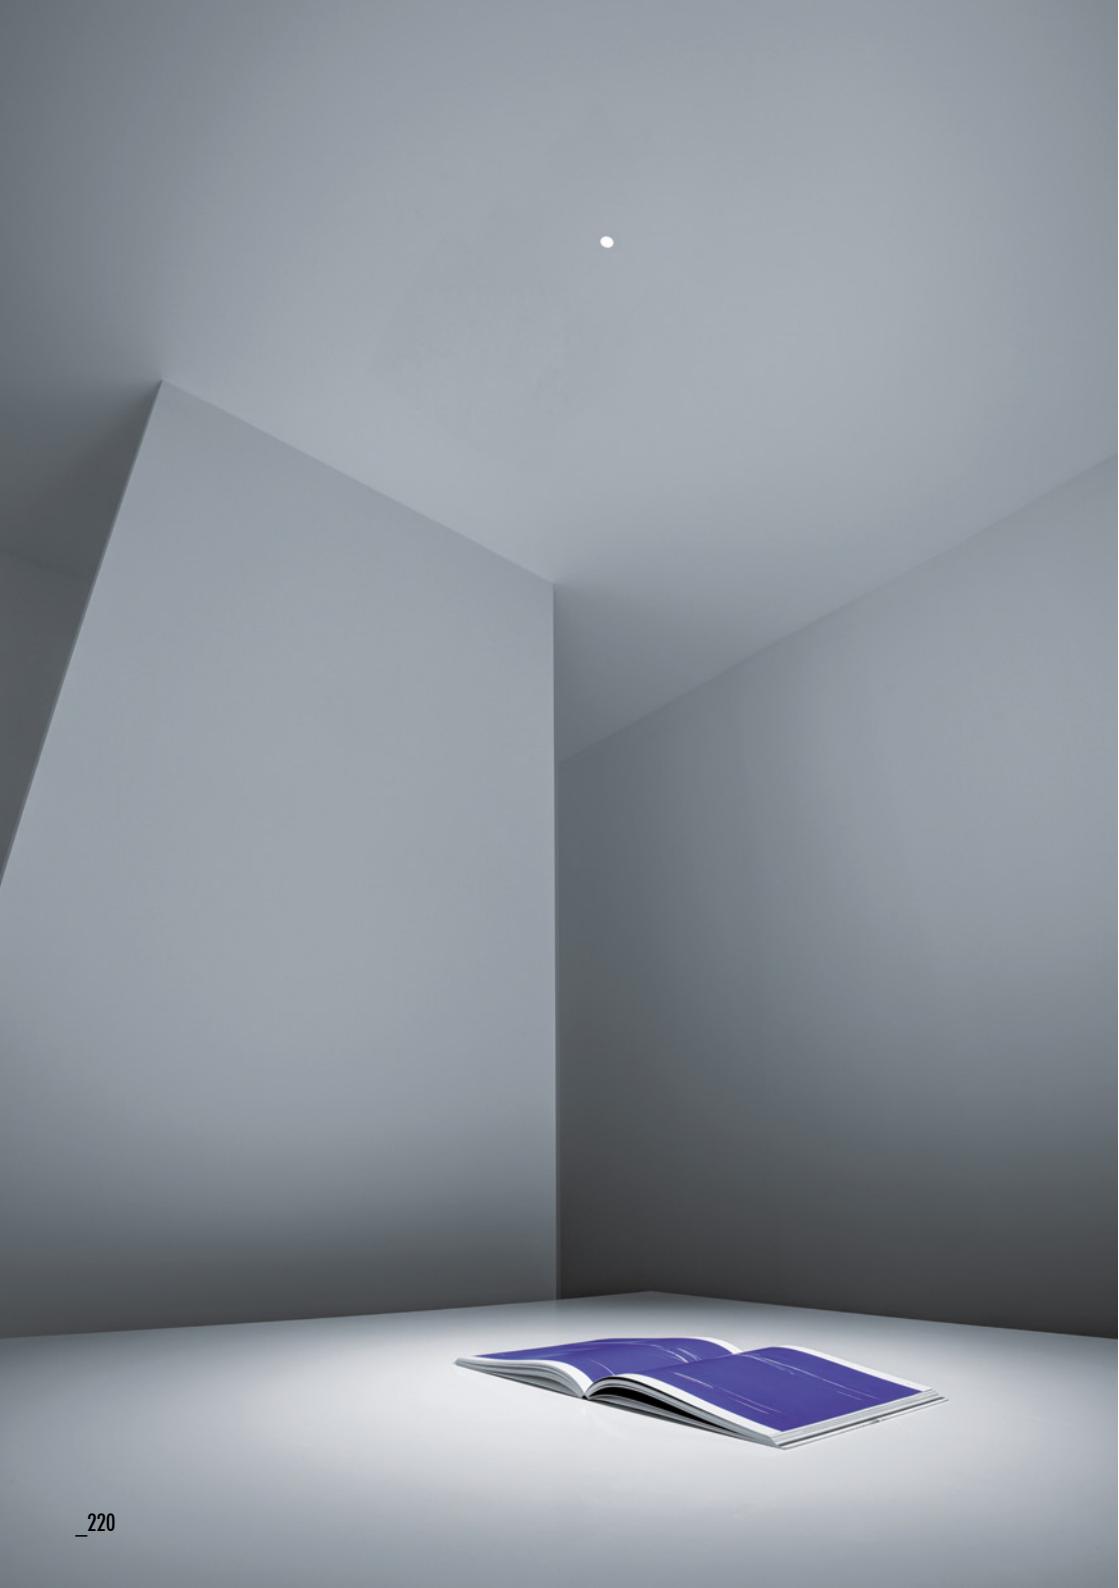

A very simple idea: a hole in the ceiling.

A 18 mm hole only, a special optical system and the led technology make a wonderful light on the surface.

Deep and sensual light.

LUCE SARTORIALE

Noi pensiamo che la luce migliore sia quella di cui ogni persona ha bisogno.
E' per questo che il nostro Ufficio Progetti si occupa di sviluppare prodotti speciali,
one-off, allestimenti e tutto quello che serve per offrire quella che noi chiamiamo Luce Sartoriale.

Non esitate a contattare i nostri uffici.
info@davidegroppi.com

We believe that the best light is the one every person needs.
For this reason our Projects Department deals in developing special products,
one-off, sets and whatever is required to offer the light we call Tailor Made.

Don't hesitate to contact our offices.
info@davidegroppi.com

Nel Dicembre del 2012 abbiamo inaugurato a Piacenza il nostro primo Spazio Esperienze.
Un luogo aperto ai progettisti e a tutte le persone che desiderano avvicinarsi alla nostra luce.

Spazio Esperienze è ricavato volutamente nel cuore della fabbrica.

Per far cogliere l'essenza del nostro lavoro.

E mostrare che le lampade non nascono per magia,
ma sono il risultato di ingegno, fantasia, lavoro, organizzazione, passione, cuore e cervello.

Vogliamo far toccare con mano le nostre quattro componenti fondamentali di progetto:
semplicità, leggerezza, emozione ed invenzione.

E far comprendere come, con coerenza e diversità, costruiamo il nostro mondo.

Vogliamo far vivere a tutti i visitatori un'esperienza indimenticabile,
capace di suscitare un sentimento di appartenenza e la voglia di ritornare.
Spazio Esperienze è visitabile su appuntamento, telefonando al numero +39.0523.571590
oppure scrivendo a info@spazioesperienze.com

On December 2012 our first Experiences Place was opened in Piacenza.
A place for designers and for all the people who like to come close to our light.

The Experiences Place is intentionally located in the heart of the factory.

To let people catch the essence of our work.

And to demonstrate that the lamps don't come out magically
but they are the result of intelligence, fantasy, work, organization, passion, heart and brain.

We want people touch our four basic components of the project:
simplicity, lightness, emotion and invention.

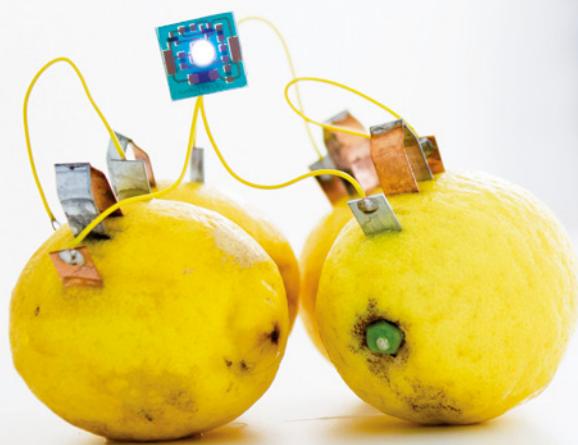

And we want people understand how we are building our world, with coherence and diversity.

We want all the visitors have such an unforgettable experience
to let them feeling to belong to the project and wishing to come back.
The Experiences Place can be visited by appointment, dialing +39.0523.571590
or writing to info@spazioesperienze.com

Lemon Ledon.

La luce ha infinite sfumature.

Utilizzando i limoni come pile è possibile generare una flebile, ma emozionante luce pulsante.

Sono la natura e la tecnologia che si incontrano ... forse la luce del futuro ...

Lemon Ledon.

Light has infinite nuances.

Using lemons as batteries it's possible to generate a soft and emotional pulsating light.

Nature meets technology ... maybe the light of the future ...
